

March 6, 2007

I wanted to express Phoenix Plastics gratitude to Jordan & ThomasNet for helping us with our new Website design and with helping driving new customers.

We had a 1<sup>st</sup> generation website and over the last two years we didn't receive a single quality request for quote or new client. I was beginning to think the Internet just wasn't good in our line of business.

Since our new ThomasNet website went live we received 11 requests for quotes in the first week! We attribute them to our ThomasNet program and quality new website.

We never realized what a difference a quality website would make – and the price was terrific. Working with ThomasNet is the best investment we have made regarding our Internet presence!

Thank you for making a difference in Phoenix Plastics, we look forward to a long-term mutually beneficial business relationship between ThomasNet and Phoenix Plastics.

Sincerely,  
Rene Garcia  
General Manager
