To Whom It May Concern:

Partnering with Jordan Weiner of Internet Consulting, Inc., and ThomasNet has made a positive impact on our bottom line.

In addition to helping us acquire new customers through ThomasNet, Jordan has also been very helpful in guiding our overall website development efforts.

While we have been a ThomasNet client for many years, the results achieved changed dramatically for the better when Jordan took over the account this year. Today, we consider ICI and ThomasNet to be a long-term partner in our business. This partnership allows me to spend my time concentrating on other areas of the business while being confident that our Internet presence is keeping up with the ever-changing on-line environment.
